# Dr Spa THE NEW ERA OF PROFESSIONAL MASSAGE

The innovative Sound Wave System delivers natural sound wave to skin, muscle, ligament, tendon, bones, ensuring pleasure and wellness sensation.

Dr Spa treatment produces cold, painless and non-invasive energy that restore tone and elasticity to the skin.

## SOUND WAVE

Dr Spa sound-wave technology is particularly effective in cases of persistent cellulite and water retention.

Dr Spa is appropriate to combat the "orange peel" skin on critical areas (arms, abdomen, thighs, hips, buttocks and legs)

The action of the symphonic sound waves improves the brightness and compactness of the skin since the first treatment.

The harmonic sound waves reach the deepest layers of the skin, stimulating the production of collagen and elastin, therefore facilitating the activation of the fibroblasts.
